

Cub Cadet[®]

Lawn Tractors

Cub Cadet Easy Handling Outside...

Lighted dash flashes friendly reminders for starting and power take-off functions. Controls within reach of operator's seat. Electric power take-off puts control of attachments at your fingertips. Tractor design offers excellent visibility from all angles.

Cub Cadet lawn tractors have the strongest foundations in the business. The cast-iron front axle and thick gauge twin steel frame provide shock absorbing strength and durability. Tight turning radius lets you maneuver closely around trees and shrubs with ease.

Every Cub Cadet lawn tractor features finely balanced Briggs and Stratton engines. The maintenance-free solid state ignition has a fully regulated charging system for quick, sure starts. Two-cylinder engines on Models 1605 and 1610 provide twice as many power strokes as a single cylinder engine for every revolution in the crankshaft for smooth, steady power.

Step Up To Cub Cadet Comfort and Convenience.

For 25 years, Cub Cadet lawn tractors have been making chores easier. Today, they're more convenient than ever, with the comfort and easy handling you'd expect from a more expensive tractor.

Just sit on the adjustable cushioned contour seat, and wrap your fingers around the soft-grip steering wheel.

All controls are close at hand. A fender-mounted shift lever puts power at your fingertips. An electric power take-off switch operates attachments for mowing, snow-throwing and more, right from your seat.

Choose from five Cub Cadet models: 8 to 16 horsepower, with easy shift-on-the-go 5-speed transmission or the ultra convenient no-shift, no-clutch hydrostatic drive.

Model 805 features an 8 H.P. balanced engine with shift-on-the-go 5-speed transmission and a 36-inch mowing deck.

Model 1105 (5-speed transmission) and Model 1110 (hydrostatic) are powered by commercial 11 H.P. engines. Choose between a 36-inch or 44-inch mowing deck for either model.

Models 1605 and 1610 are also built with 5-speed and hydrostatic transmissions. They feature two-cylinder commercial 16 H.P. engines and your choice of 36-inch or 44-inch mowing decks.

With optional attachments for cutting, bagging, dozing, snowthrowing and hauling, Cub Cadet lawn tractors offer more versatility than rear engine riders, and more long-lasting value than tractors of other makes.

Take an inside look at why Cub Cadet lawn tractors have been America's choice since 1961. And ask your Cub Cadet dealer questions. He's a part of our strong, full-service dealer organization, and he's an expert on lawn and garden equipment. He can tell you what over three-quarters of a million happy owners have already discovered — Cub Cadet is one tough tractor.

Cub Cadet[®]
One Tough Tractor

...One tough tractor inside

Full instrumentation dash includes ammeter plus lighted dash module for power take-off and starting functions.

Adjustable, fully cushioned seat is spring mounted. Seat safety switch automatically shuts off engine when power take-off is engaged and operator dismounts.

Large 3.5 gallon fuel tank allows approximately three hours of mowing.

Fender mounted shift lever features a straight line shift pattern. It allows for easy operation while viewing to the rear as well as the front, and automatically returns to neutral, when the brake pedal is depressed. On hydrostatic models.

One-piece all-steel fender with footrest for operator protection and comfort.

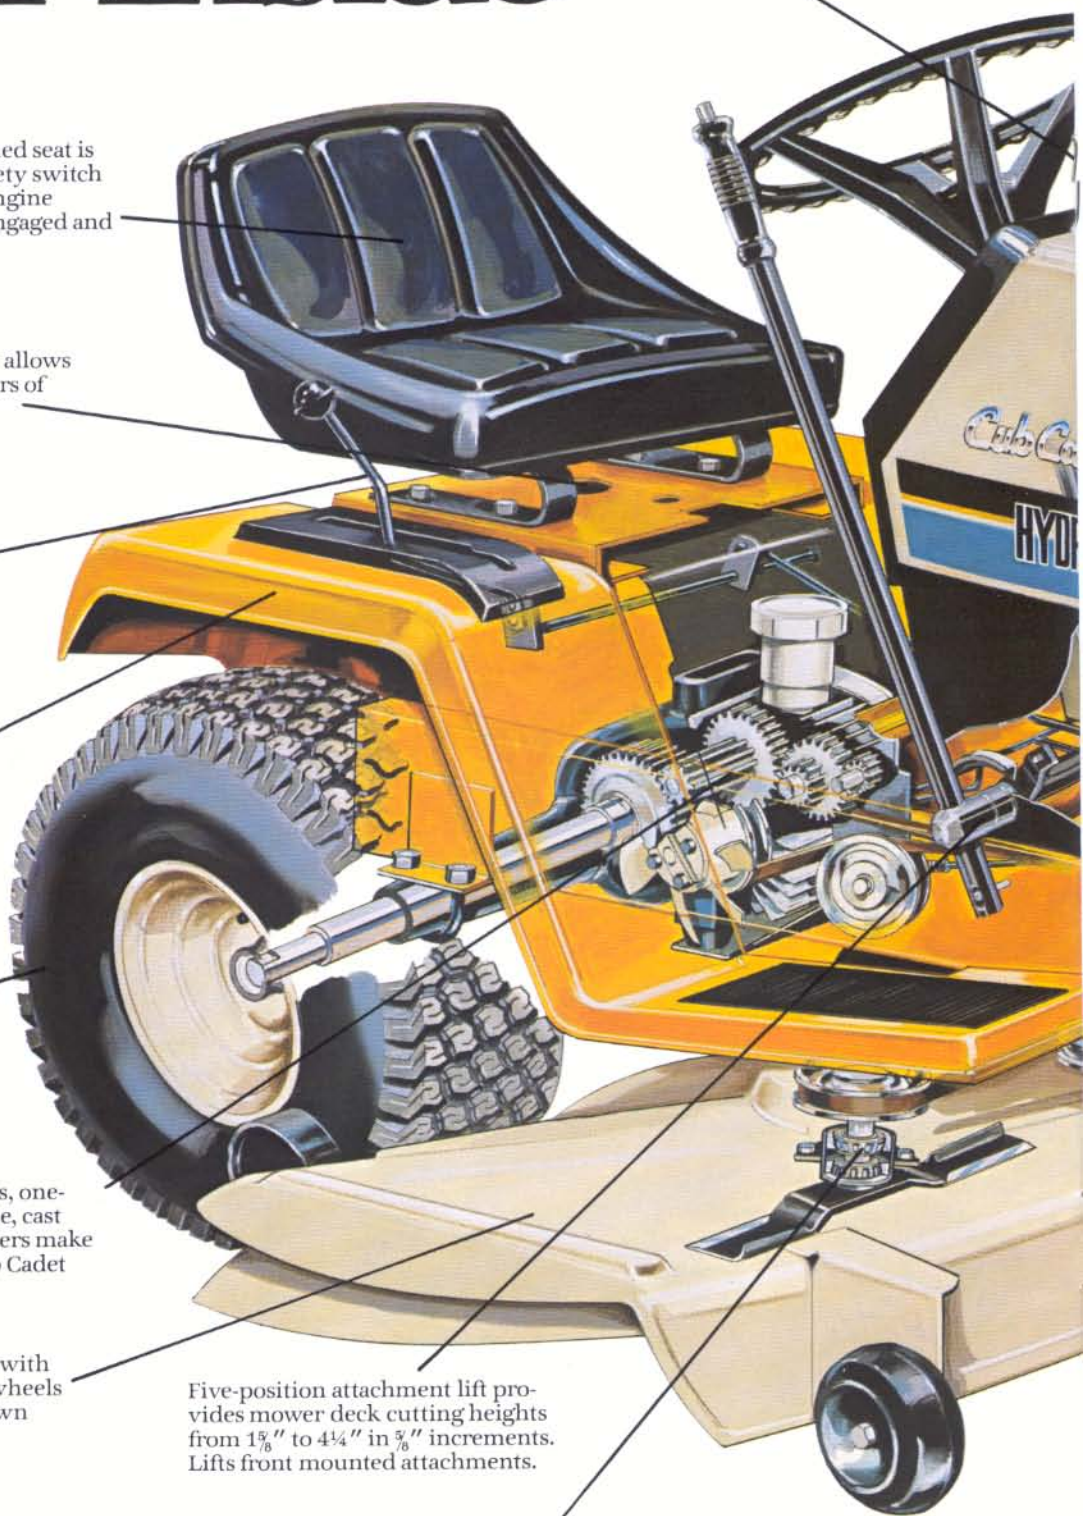

High flotation tires measure 20"x10"x8" providing excellent traction. Tractor weight is evenly distributed for less turf defacement.

All-cut steel hardened gears, one-inch bearing supported axle, cast iron housing and axle carriers make this hydrostatic tractor Cub Cadet tough.

Semi-floating mower deck with four adjustable anti-scalp wheels and one roller cuts your lawn evenly.

Five-position attachment lift provides mower deck cutting heights from 1 $\frac{5}{8}$ " to 4 $\frac{1}{4}$ " in $\frac{3}{8}$ " increments. Lifts front mounted attachments.

Permanently lubricated mower spindles with tapered roller bearings, require no maintenance.

Fully regulated 12-volt battery charging system maintains proper charging rates as engine rpm and accessory use varies.

Maintenance-free solid state ignition provides quicker and more reliable starts than coil systems. Backed by a 5-year warranty.

Sector gear and pinion steering is two complete turns lock-to-lock, for fast easy maneuvering. The tight turning radius saves mowing time.

16 horsepower engine features two-cylinder design. It generates twice as many power strokes per crankshaft revolution for smoother, steadier power and dissipates heat twice as fast as an iron block engine, for superior cooling.

Heat baffle insulates engine.

Fiberglass reinforced hood tilts forward allowing easy access to engine and battery.

Paper cartridge air filter with foam precleaner protects the carburetor from dirt. Lasts longer than ordinary foam filters. (11 and 16 H.P.)

Headlamps provide visibility in all conditions for safe operation. (Standard on Models 1605 and 1610. Optional on Models 1105 and 1110.)

Cast iron cylinder walls provide extra durability.

Cobalite exhaust valves resist wear and feature rotators which reduce carbon build-up. (11 and 16 H.P.)

Electric power take-off clutch features fingertip control with fewer moving parts. Switch operation guards against accidental engagement.

C-shape, twin channel steel frame extends beyond each axle to provide solid support.

Pivoting cast iron front axle conforms to bumps, absorbs stress and strain.

Lubricated axle spindles are bolted in place and have grease fittings for longer life.

Get Year-Round Versatility With These Optional Attachments

40" Snowthrower

Model 196350

This Cub Cadet snowthrower, controlled by the electric power take-off switch, easily clears a wide path with its powerful 15½-inch diameter auger and 20-inch high opening. Adjustable skid shoes make it easy to drive over unlevel ground. Belt slip drive protection adds safety. Available for 11 and 16 H.P. lawn tractors.

42" Snow Blade

Model 196424

Heavy duty and versatile to plow snow or grade loose soil. Spring loaded trip and return design protects blade and operator. Wheel weights and chains recommended for improved traction. This snow blade fits all Cub Cadet lawn tractors.

10 Cu. Ft. Cart

Model 196368

Haul any load in this cart's sturdy all-steel body. For oversize loads, tailgate easily removes. Convenient release lever on trailer tongue lets you dump from the seat. Available for all Cub Cadet lawn tractors.

Lawn Sweepers

32" Model 196482, 38" Model 196483

New lawn sweepers pick up grass clippings, leaves and other light debris. Choose between 32-inch or 38-inch widths. Both dump easily from operator's seat. Pinion and pawl drive for ball bearings support brush shaft. Use on all Cub Cadet lawn tractors.

Rear Bagger

Model 196395

This rear bagger holds up to 5 bushels of grass. For added convenience, plastic garbage bags can be inserted inside the hopper. Low angle of chute prevents clogging. Rear mounting allows for a closer cut around trees, shrubs and other obstacles. Available for all lawn tractors when equipped with 36" deck.

Cub Cadet[®]
One Tough Tractor

Buy with confidence from Cub Cadet.

One of the most important reasons to buy quality Cub Cadet products is the expert, full-service dealer who stands behind them... now with a 2-year limited consumer warranty.

There are over 1400 independent Cub Cadet dealers nationwide — all equipment experts who know Cub Cadet tractors inside and out. They're trained to service Cub Cadet tractors, and they can get the parts you need fast.

Your Cub Cadet dealer also provides fast and easy credit with competitive rates through Cub Cadet's On-the-Spot financing plan.

When you buy a Cub Cadet, you buy with confidence from a leader in the industry. Cub Cadet was established in 1961 as a subsidiary of International Harvester. Today, Cub Cadet Corporation independently engineers and manufactures outdoor power equipment, continuing the tradi-

tion of quality excellence and customer service started 25 years ago. Our farm heritage assures you of rugged, long-lasting performance.

Visit your local Cub Cadet dealer for all your lawn and garden equipment needs. He can answer your questions and help you select the tractor that's right for you. And he can tell you what close to one million happy owners have already discovered — Cub Cadet is one tough tractor.
